PROFESSIONAL SUMMARY

Motivated Computer Science Engineering student with strong foundations in Software Engineering, Java Development, Object-Oriented Programming (OOP), SOLID Principles, and Software Development Life Cycle (SDLC). Proficient in Core Java, Data Structures and Algorithms (DSA), Database Management Systems (DBMS), and backend development concepts. Experienced in applying software design principles, debugging, version control, and software development best practices through academic projects and internships. Skilled in building scalable, efficient, and maintainable applications while leveraging Git, CI/CD, cloud technologies, and Agile development methodologies. Passionate about problem-solving, software architecture, and developing high-quality software solutions.

INTERNSHIP EXPERIENCE

Envision Pvt Ltd – Advanced Java & Web Development Intern

- Worked on Java programming fundamentals and object-oriented concepts.
- Integrated backend and database
- Learned website structure and basic web technologies.
- Improved debugging and software development practices.

AICTE Virtual Internship – AI Powered Cloud Engineer Virtual Internship

- Learned cloud architecture, deployment models, and cloud security fundamentals.
- Worked with AWS services such as EC2, Lambda, API Gateway, ECR, and Load Balancer concepts.
- Explored DevOps practices including Linux, Git, GitHub Actions, and CI/CD workflows.
- Developed an understanding of AI-powered cloud solutions and scalable application deployment.
- Enhanced problem-solving, cloud management, and industry-relevant technical skills.

EDUCATION

JSPM University, Pune (Current)

Bachelor of Technology (B.Tech) – Computer Science Engineering

TECHNICAL SKILLS

Programming Languages: Java(Core Java, OOP, Collections Framework, ExceptionHandling,Multithreading), Python, HTML,C

Software Engineering:

Object-Oriented Programming (OOP), SOLID Principles, Data Structures & Algorithms (DSA), Software Development Life Cycle (SDLC), Design Patterns, Software Testing.

Cloud Computing: AWS (Lambda Functions, Application Load Balancer (ALB), Elastic Container Registry (ECR), EC2, API Gateway)

DevOps: Linux, Git, GitHub, CI/CD pipeline

Databases: MySQL, Oracle Database

ACADEMIC PROJECTS

Weather Dashboard Application

- Built a live weather monitoring dashboard using APIs.
- Displayed real-time temperature, humidity, and weather information dynamically.

Task Management System

- Developed a productivity application for organizing and tracking daily tasks.
- Implemented task creation, updating, prioritization, and status monitoring features.
- Enhanced user productivity through efficient task scheduling and reminders.

CERTIFICATIONS

- Advanced Java & Web Development Internship Certificate – Envision Pvt Ltd
- AWS Cloud Practitioner Essentials

SOFT SKILLS

- Quick Learner
- Problem Solving
- Team Collaboration
- Communication Skills
- Adaptability
- Analytical Thinking
